

SEALEGS 7.7M CABIN RIB

SEALEGS[®]
BE AMPHIBIOUS

The Sealegs 7.7m Cabin Rib is the luxury craft of the Sealegs range. The cabin is fully enclosed by the use of a targa top and clears, protecting you from the elements while you are out on the water.

The Cabin also includes a comfortable bench seat for passengers or for moments of rest for the driver between outings.

The outboard can be upgraded to 200HP, and various options allow you to customise your Sealegs Cabin Rib to make it the perfect craft for you.

Sealegs Amphibious Enablement System (AES)

AES provides a fully integrated, turn-key amphibious package.

- Hydraulic transmission powered by a 22HP Honda engine
- AWD all-wheel drive
- XRT xtended run time
- ABS automatic braking system
- PS power steering for land and water
- Dash mounted control panel
- Marinised hydraulic lift and drive system
- Heat treated cast marine alloy legs
- Targa-top and clears
- Anchor and automatic winch system
