

STABICRAFT 2100 ST AMPHIBIOUS BY SEALEGS®

The Stabicraft 2100ST - *Amphibious by Sealegs* capitalises on the internationally proven Sealegs Amphibious Enablement System to deliver unparalleled convenience for launching and retrieving your craft. Married with the quality, safety and reliability of a Stabicraft, this craft provides a boating experience like none other.

This impressive craft will keep you protected from the elements with its enclosed cabin, and can be painted in myriad colours to suit your taste. Getting on and off the beach or up and down the boat ramp in a Stabicraft is easier than ever. No trailer, no tractor, simply amphibious.

Sealegs Amphibious Enablement System (AES)

AES provides a fully integrated, turn-key amphibious package.
